

CONGLOMERATES, HOLDING COMPANIES & INVESTMENT GROUPS CYBERSECURITY

Protect every entity and every deal.

Group cyber governance, M&A due diligence, shared SOC, portfolio assessments and Board reporting for business groups, holding companies, CICs, family offices and PE and VC firms.

Three questions every group and investment leader should be able to answer

If ransomware struck one subsidiary tonight, could it reach the rest of the group?

Separate admin tiers, MFA on every remote route, controlled directory trusts and a group SOC decide whether an attack stays in one company or stops many.

Do we know whether a company we are buying is already compromised?

Pre-signing diligence, a compromise assessment before closing, cyber warranties and Day-1 monitoring decide whether an inherited intruder is found early or after the price is paid.

Could a convincing call from our chairman or CFO move money today?

Call-backs to known numbers, two-person approval for new payees and rehearsed deepfake scenarios decide whether an impersonation becomes a loss or a logged attempt.

£1.9 bn

UK impact of the JLR attack (CMC estimate)

US\$350 m

Yahoo price cut after breaches

₹22 crore

Average breach cost in India (IBM, 2025)

6 hours

Incident reporting to CERT-In

Built for every layer of the group and investment chain

Diversified business groups · holding companies · core investment companies · family offices · private equity and venture capital firms · portfolio and group companies · acquisition platforms and shared-services centres.

The rules that drive your security calendar

Instrument	Key cybersecurity expectations
Companies Act · SEBI LODR (2013–2023)	Board risk duties, risk committees, cyber disclosure
SEBI CSCRF · PIT · RBI CIC rules (2015–2025)	Fund managers, deal data, group risk committees
CERT-In · DPDP Act (2022–2027)	6-hour reporting, logs, audits, group data

Governance, diligence, SOC, portfolio and Board reporting

Group Cyber Governance

Group standard, maturity scoring and roles for every entity.

M&A Due Diligence

Pre-signing diligence, compromise checks and integration plans.

Shared SOC

24x7 monitoring across holdco, group and portfolio companies.

Portfolio Assessments

Baselines at entry, annual benchmarks and exit readiness.

Identity & Payment Integrity

Shared directories, vendor access, treasury and BEC controls.

Board Reporting & Readiness

Dashboards, crisis exercises, insurance and forensics.

Choose your starting point

Foundation

Treasury and payment control review, deepfake and BEC awareness, investee cyber baseline, IR retainer. For family offices and VC funds.

Assurance

M&A cyber due diligence, compromise assessment before close, portfolio maturity scoring, portfolio SOC. For PE funds and acquisition platforms.

Continuous Resilience

Group cyber standard and scoring, shared directory and cloud review, CERT-In empanelled audits, shared SOC. For diversified groups and holdcos.

Why Codec Networks

CERT-In empanelled

for information security auditing services, and empanelled with NISCI for application audit services.

Certified

ISO 9001:2015, ISO/IEC 27001:2022 and ISO/IEC 20000-1:2018.

Regulation-mapped

Every finding mapped to the Companies Act 2013 Board and risk duties, SEBI's LODR Regulations 21 and 27(2)(ba), the SEBI PIT Regulations, SEBI's CSCRF for fund and portfolio managers, RBI's directions for core investment companies, CERT-In's Directions and audit guidelines, the IT Act, the DPDP Act and your transaction documents, lender covenants and insurance policies.

One connected partner

Testing, audits, SOC, forensics and privacy linked from finding to closure.

Book a scoping session

Share your group structure, shared services, deals, portfolio, payment flows and obligations. We will propose a practical governance, testing and monitoring plan for your group.
